

Environmental Policy

Scaffrite Ltd helps to sustain natural resources and protect the environment. As a business we seek excellence in every area of our work, we are committed to continuing to improve our environmental performance by minimising our environmental impact and making resource efficiency the focal point and requirement of all of our business operations.

We aim to foster an understanding of environmental issues appropriate to and in the context of our business, among employees and other businesses with which we work. Our intention is to ensure that we continually improve the environmental impact of our activities.

To achieve this commitment, we will:

- Strive to continuously improve our environmental performance, regularly reviewing our activities and policy and setting new targets to reduce any environmental impacts caused by our activities.
- Comply with the requirements of environmental legislation and integrate approved codes of practice into our business operations.
- Reduce our consumption of resources and improve efficiency in the use of these resources.
- Ensure energy and water is used efficiently in all activities to minimise the consumption of natural resources and energy.
- Manage our operations and activities ensuring we remain within our agreed emissions limits as stipulated by our license, and to reduce pollution, emissions and waste.
- Promote the reduction, reuse and recycling of waste materials in all working activities to conserve resources and reduce waste disposal.
- Ensuring all waste is disposed of in a safe and responsible manner.
- Procure goods and supplies which take environmental specifications into account.
- Raise awareness and encourage participation in environmental matters through discussions and training sessions for staff.

This policy confirms the intentions of the Directors at Scaffrite Ltd. We recognise our responsibility towards protection of the environment, and issue this statement as a commitment of both management and employees to minimising the environmental impact of our operations.
